Hi Paula! My understanding is that they are just going to collect more soil samples. As far as I know, the project schedule has not changed. I will ask around for confirmation....

Lisa - Question: what is the City's time table for the 40th St. storm sewer improvement project? PWT told me that there are a lot of flags in the park area and by the Pepsi plant? Are you getting ready to start construction or is it just further GT investigations?
